

Oklahoma State Department of Health (OSDH)

Provider Checklist for Achieving Meaningful Use (MU)

Registration

I have completed a Meaningful Use Registration at:
<https://www.phin.state.ok.us/MeaningfulUse/Default.aspx>

I have received an email from OSDH Meaningful Use Team confirming my registration

Onboarding

I have received an invitation from OSDH Meaningful Use Team inviting my site to begin the onboarding process

I have visited the Meaningful Use Website at:
<https://www.phin.state.ok.us/MeaningfulUse/Default.aspx> and selected an available time slot to complete the Onboarding Event Call with the Meaningful Use Team

(Provider site must ensure there is a vendor representative present during the Onboarding Event Call, and HIE representative if you are a member of an HIE)

I have received an email from OSDH Meaningful Use Team containing my OSDH Master Site ID and Application OID assigned that will be required for onboarding

I have attended the Onboarding Event Call with OSDH Meaningful Use Team and attesting that I understand the requirements needed from my provider site to submit HL7 messages for Meaningful Use purposes

Pre-Test/Testing

I have submitted my HL7 VXU test message utilizing the NIST Validation Tool at <https://hl7v2-iz-r1.5-testing.nist.gov/iztool/#/cf> for pre-testing purposes

I have submitted an HL7 VXU message that contains 0 errors and I have emailed my test message report to the Meaningful Use Team at MeaningfulUse@health.ok.gov

I have received confirmation from OSDH Meaningful Use Team that they have received my test message report and it is successful

I am now ready to submit my HL7 VXU Test Message on the Meaningful Use Website at <https://www.phin.state.ok.us/MeaningfulUse/Default.aspx?id=247>

***Upon logging on to the MU Website, please select the test message tab, select the provider site you have been selected to onboard for and copy and paste your message for submission**

I have submitted my HL7 VXU Test Message and received an immediate report that confirms that the test message is free of errors

I have received an email from OSDH Meaningful Use Team confirming that my provider site has completed the Meaningful Use VXU Testing Phase

Connectivity

I have received the URL endpoint from OSDH and have completed testing the connectivity of my transport method

I have resubmitted all previously submitted messages via the given URL for testing of connectivity and data quality and I have received a successful acknowledgment message

I have been selected to submit HL7 VXU messages in pre-production

***Following the Onboarding Event Call, please direct all Pre-Test/Testing/Connectivity questions to MeaningfulUse@health.ok.gov**

Pre- Production

I have submitted 30 days' work of Immunization (VXU) data

***During this time frame, HL7 VXU messages will be monitored for data quality and VXU required specifications**

I have been selected to submit HL7 VXU messages in production

***Following the Onboarding Event Call, please direct all Pre-Production questions to MuDataquality@health.ok.gov**

Production

I am actively submitting VXU messages in a live production environment

***Following the Onboarding Event Call, please direct all Production questions to Osiishelp@health.ok.gov**
